

Together we will help find SOS resources!

COVID-19 CITIZEN RESPONSE

COVID RELIEF INDIA ALLIANCE

We are a collective of citizen efforts and tech-tools that were built during the devastating second wave of Covid-19 in India. We came together to create an eco-system of support to relief projects that are not tied to an organised nonprofit organisation. Together we are using tech and data science to address what we see as core issues. We will be here as long as Covid-19 is here. Helping as many people to save lives as we can.

01.

OPEN SOURCE DATABASE OF COVID RESOURCES

Integration of all verified
databases in India into one API

01.

USER FEEDBACK

MECHANISM

People report
unhelpful data

02.

AUTO GENERATED

LEADS

Our API gives SOS
providers raw
automated leads

03.

VOLUNTEER OPS

AUTOMATION

Verify leads in
self-assist, self-serve
manner

04.

AUTOMATIC DATA

ASSESSMENT

Push only highly usable
data combining all past
queries

05.

OPEN SOURCE

One backend, multiple
front-ends

06.

EASY TO USE - NO CODE

No code principles for
partners to maintain
databases easily.

02.

OXYGEN EXCHANGE

@ CRIA

Oxygen Concentrator (OC)
deployment model for Pan-India
with a bottom-up analysis at
hospital-bed level data, overlaid
with Covid infection modelling.

OXYGEN EXCHANGE

PREDICTING DEMAND OF OXYGEN

Using publicly available data to identify hotspots and districts that could benefit from added O₂ capacity.

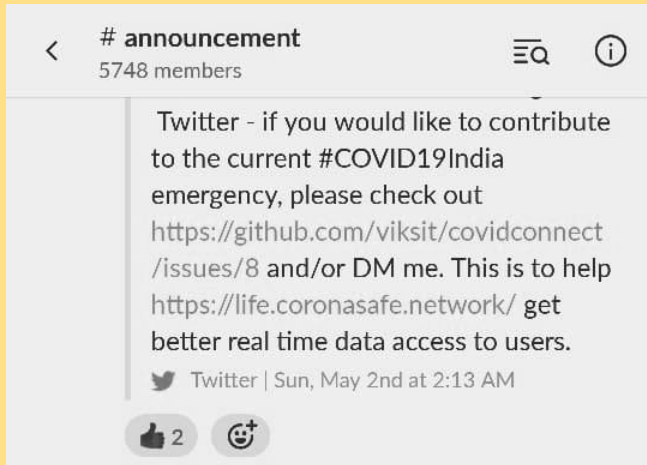

MAPPING GAPS IN SUPPLY CHAIN

Working with government, NGOs, donors to plug the supply gaps with elegant supply chain solutions and augment it with OC deployment.

5000+

Citizen leaders, tech entrepreneurs, data scientists, civil society experts have joined the alliance!

Join the community [raksha.slack](https://raksha.slack.com)

If you are looking to collaborate with other Covid relief projects run by citizens, this is the place!

WHO SHOULD PARTNER WITH US?

If you have a database, let's join forces!

What are the ways we can collaborate?

#SAVELIVES

Media collaborations! The more we are the more organised we are!

Volunteer support - we are always looking for talented people.

CRIA PARTNERS AND MENTORS

WHY BECOME CRIA PARTNERS?

#01

Enrich your database

We will help you integrate it into the API we are building so you have yours + other partner's verified leads

#02

Benefits from the community?

Our Whatsapp group lets you quickly pool-in resources with other projects. Our slack can enable tech expertise for your project

#03

LIFE Mentors

Access to global pool of mentors that work in product, engineering, policy and data

#04

If and when there is the next wave, we will be more ready than ever before!

THANKS!
